Summary

A graduating Computer Science student specializing in system analysis and software development. Skilled in Java, C#, Python, and web technologies, with experience in computer troubleshooting, Android development, MySQL, UI/UX design, and 3D tools. Eager to apply strong problem-solving skills in an entry-level tech role.

Work Experience

Systems & Data Analyst Intern | Lamao National High School

Jan 2026 – Apr 2026

- Managed and automated digital record-keeping using Microsoft Excel to streamline administrative data processing.
- Built and maintained a 2026 General Ledger in Excel for structured financial tracking.
- Managed enrollment verification and student data encoding using the Learner Information System (LIS) and MySQL databases.
- Provided technical support and diagnostic troubleshooting for computer hardware, peripheral configurations, and network setups.

Projects

Reservation System (GUI w/ SQL)

- Engineered a Java-based desktop reservation system integrating SQL database operations for reliable CRUD functionality and record persistence.
- Developed an intuitive Graphical User Interface (GUI) to streamline booking workflows and minimize user input errors.

Concert Ticket System (CLI) - Java Hash Mapping

- Implemented core data structures in Java, utilizing Queues to maintain fair FIFO customer flow and Hashmaps to achieve O(1) constant-time ticket lookups.
- Built a robust command-line interface (CLI) optimized for speed, transaction reliability, and high-performance querying.

Barangay Management System- C#

- Created a C# desktop application to streamline resident data management and document issuance for local government use.
- Designed structured database workflows to reduce paperwork and speed up administrative tasks.

Courant- IoT

- Helped developed an IoT power monitoring system combining hardware sensors with real-time data tracking and implemented logic for automated power regulation and energy resource optimization.

FujiFeast (Prototype) - UI/UX Figma

- Designed an interactive, high-fidelity mobile food-app prototype using Figma.
- Crafted a streamlined user flow to reduce navigation steps and simplify the checkout experience.

House Interior/Exterior- 3DS Max Animation

- Modeled, textured, and lit detailed interior and exterior architectural scenes in 3ds Max.
- Produced smooth walkthrough animations emphasizing realistic lighting and clean visual presentation.

Maze (Interactive w/Character)- Unreal Engine

- Created a playable 3D maze environment in Unreal Engine, implementing character controls and collision logic.
- Designed engaging level layouts, pacing player movement and path navigation.

Certifications

- Cisco- Cyber Threat Management
- Certiport- IC3 Digital Literacy Certification GS6 Level 1
- Certiport- IT Specialist - Cybersecurity
- Certiport- IT Specialist - HTML and CSS
- Certiport- IT Specialist - Software Development
- Certiport- IT Specialist- JavaScript
- Certiport- IT Specialist- HTML5
- Microsoft- Microsoft Office Specialist: Associate (Microsoft 365 Apps)
- Microsoft-Microsoft Office Specialist: Excel Associate (Microsoft 365 Apps)
- Microsoft- Microsoft Office Specialist: PowerPoint Associate (Microsoft 365 Apps)
- Microsoft- Microsoft Office Specialist: Word Associate (Microsoft 365 Apps)
- Certiport- Application Developer

Proficiencies

- Microsoft Office Suite: Word, Excel, PowerPoint
- Programming Languages: Java, C#, Python, HTML, CSS
- Database: MySQL
- Animation/3D Modeling: Unreal Engine, 3ds MAX
- UI/UX: Figma, Android Studio, Ionic
- Basic Computer Troubleshooting
- Communication and Team Coordination

Education

2022-2026| **Cum Laude**

Bataan Peninsula State University- Main Campus

Bachelor of Science in Computer Science Major in Software Development
